

REDUCING THE COST AND PREVALENCE OF PAYROLL ERRORS

DID YOU KNOW?

Approximately 45% of small businesses outsource their payroll!
Companies that do outsource their payroll can save 18% of cost compared to those doing it themselves.

WE ALL MAKE MISTAKES

The IRS assessed up to \$6 billion in employer penalties in 2020 alone.

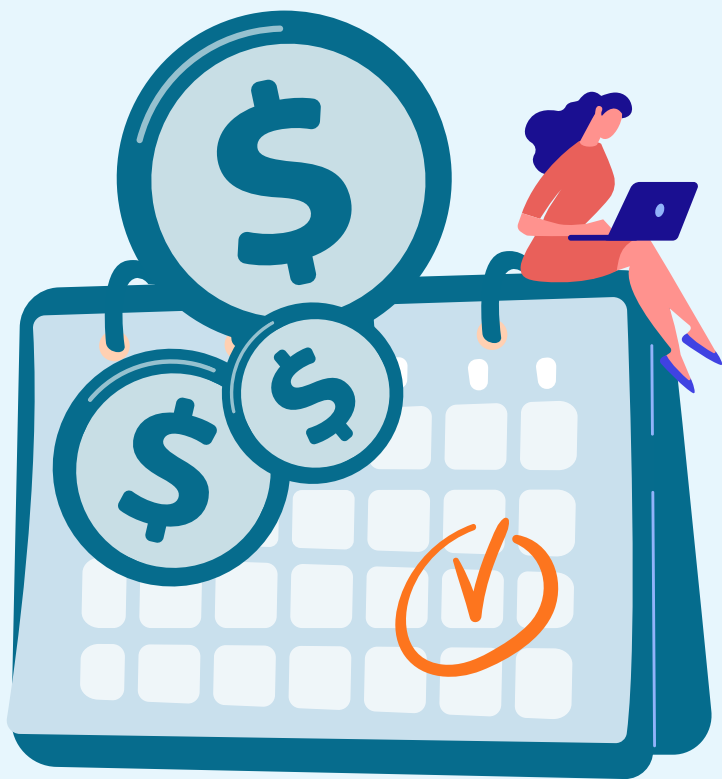

Approximately 30% of organizations can not classify their employees correctly for tax purposes.

PAYROLL IS IMPORTANT

72%

72% of Americans experience financial hardship if there is a one week delay in salary payment.

- ✓ 69% of companies struggle with payroll discrepancies!
- ✓ On average, U.S. companies make 15 corrections to their payroll each pay period.

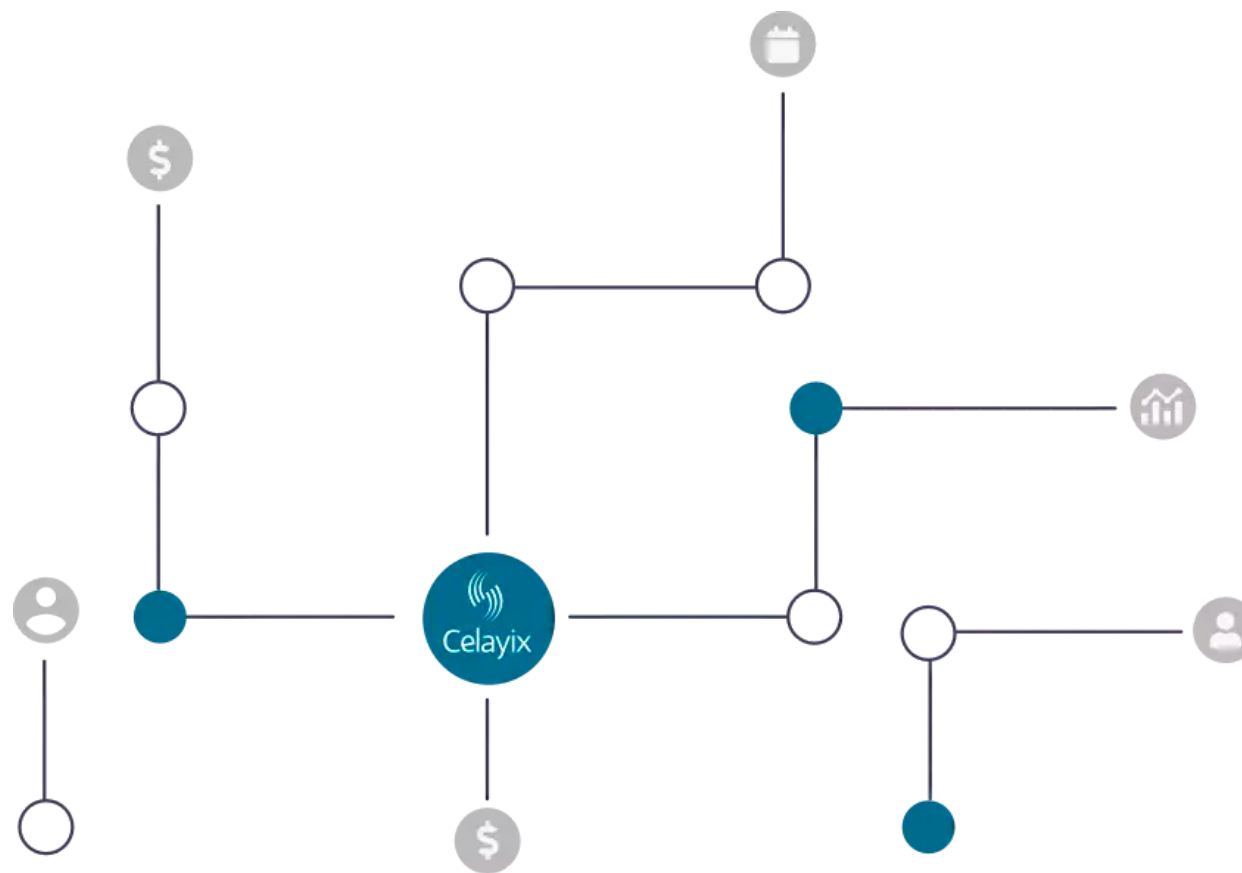

82 MILLION AMERICANS HAVE ENCOUNTERED PAYCHECK PROBLEMS AT SOME POINT IN THEIR CAREER!

Of those, 26% of hourly workers have experienced underpayment due to poor payroll processing.

CAN INTEGRATION REDUCE ERRORS?

Automated timekeeping, when linked with payroll processing, can reduce error rates by 67%!

TIME & ATTENDANCE SOFTWARE CAN HELP

Surprisingly, 40% of companies still rely on payroll spreadsheets. Integrated time and attendance software will save you time and money on payroll!
